

# Instructions for connecting Metamask to JOYS PoAS

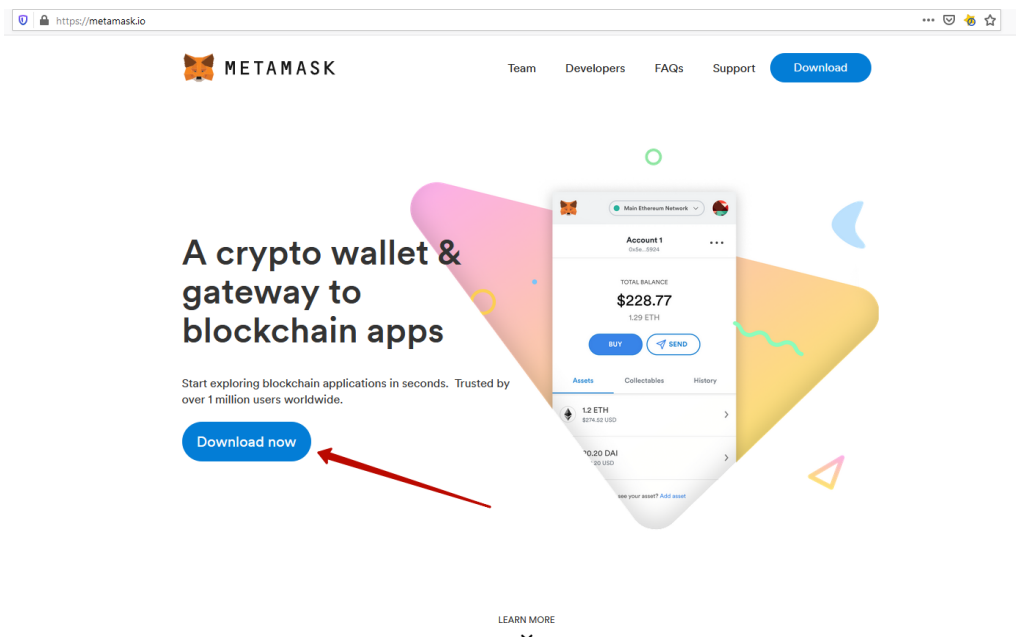

## Why do we use Metamask?

Metamask is a secure crypto wallet in Chrome, Firefox, Edge and Brave browsers. It is a browser extension that acts as a bridge between common browsers and Ethereum-like blockchains.

MetaMask does not require a username and does not store your private keys on any server, instead they are stored in the browser and protected with a password.

## Step 1. Install Metamask in your browser

Open the official wallet page in your browser (Chrome, Firefox, Edge or Brave) – <https://metamask.io/> and install it according to the instructions on the site.

Install it in your browser

Firefox

iOS

Android

## Install MetaMask for your browser

The screenshot shows the MetaMask browser extension interface. At the top, it says "Main Ethereum Network". Below that, it displays "Account1" with the address "0x5e...5924". The main display shows "1 ETH" and "\$300,000.00 USD". There are "Deposit" and "Send" buttons. Below that is a "History" section with a transaction: "#3 - 4/1/2019 at 11:30", "Sent Ether", "CONFIRMED", "- 3 ETH", and "\$-600 USD".

[Install MetaMask for Firefox](#)

Create a wallet if you don't have it yet; if you have a seed phrase – import it.

## New to MetaMask?

**No, I already have a seed phrase**

Import your existing wallet using a 12 word seed phrase

[Import wallet](#)

**Yes, let's get set up!**

This will create a new wallet and seed phrase

[Create a Wallet](#)

Create a complex and non-repetitive password.

## Create Password

New password (min 8 chars)

Confirm password

I have read and agree to the [Terms of Use](#)

Create

Be sure to save your seed phrase in a secure place.

## Secret Backup Phrase

Your secret backup phrase makes it easy to back up and restore your account.

**WARNING:** Never disclose your backup phrase. Anyone with this phrase can take your Ether forever.

Remind me later

Next

Tips:

Store this phrase in a password manager like 1Password.

Write this phrase on a piece of paper and store in a secure location. If you want even more security, write it down on multiple pieces of paper and store each in 2 - 3 different locations.

Memorize this phrase.

Download this Secret Backup Phrase and keep it stored safely on an external encrypted hard drive or storage medium.

Repeat your seed phrase on the next page:

< Back

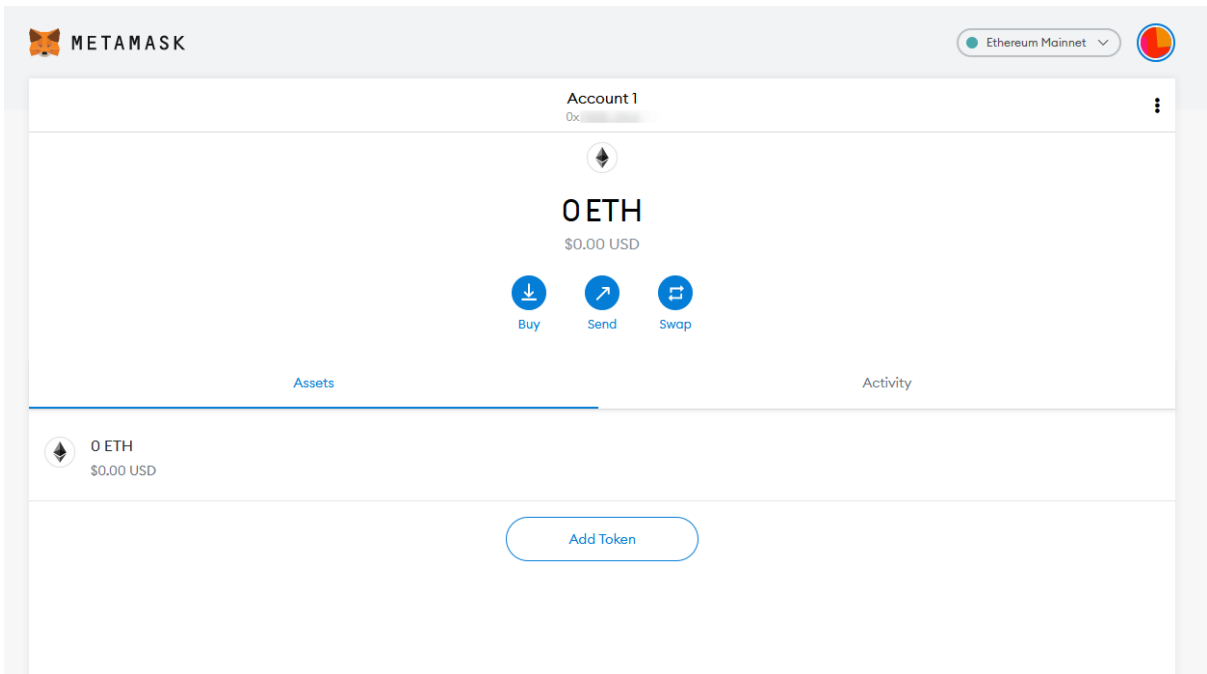

# Confirm your Secret Backup Phrase

Please select each phrase in order to make sure it is correct.

Confirm

Congratulations, you have successfully installed a Metamask wallet!

## Step 2. Add JOYS cryptocurrency

Add JOYS blockchain network by clicking a button

Follow the link – <https://metamask.joys.digital/> and click "connect!".

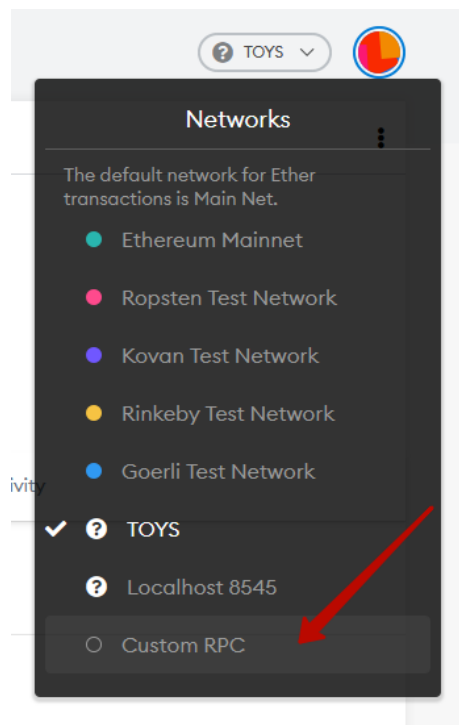

**Connect to JOYS with Metamask**

If you are an advanced user or something went wrong, then connect to the JOYS network manually.

## How to add the JOYS blockchain network manually (for advanced users)

### Switch Metamask to Custom RPC

Then fill these fields and click "Save":

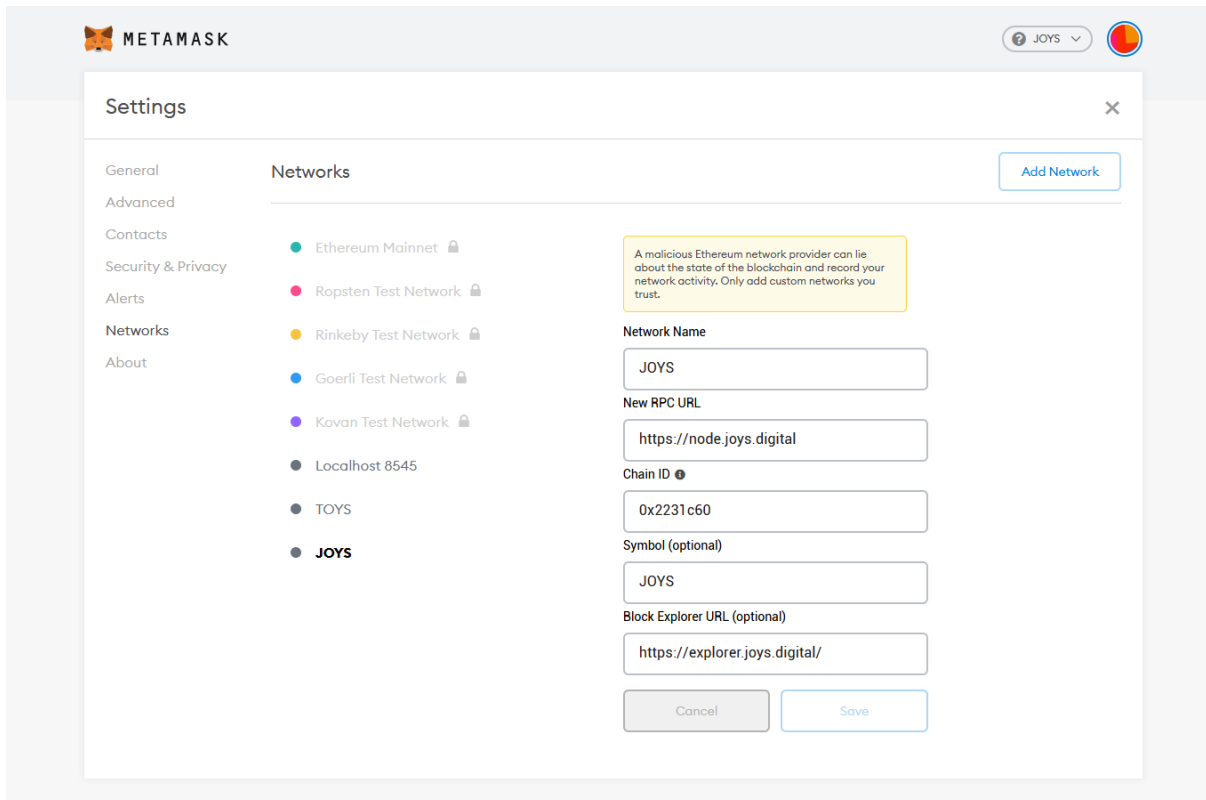

Network Name: "Joys Digital Mainnet (POAS)"

New RPC URL: "https://node-poas.joys.digital"

Chain ID: "35855456"

Symbol (optional): "JOYS"

Block Explorer URL (optional): "https://explorer.joys.digital/"

Now you have a JOYS wallet!

### Step 3. Get JOYS to your Metamask wallet

- You can buy JOYS on [p2pb2b](https://p2pb2b.com) and [LATOKEN](https://latooken.com) exchanges
- You can buy JOYS in the Joys Wallet app ([iOS](#) and [Android](#))
- You can get it as a gift from friends on the website – <https://gift.joys.digital>

To find out your wallet address in Metamask, select “Account details” from the drop-down list.
